

SPONSOR EQUESTFEST

The Saddle Light Center for Therapeutic Horsemanship positively impacts lives through the use of Therapeutic Horseback Riding and Hippotherapy. Currently, our program serves 50+ clients weekly with the assistance of 120 volunteers and 13 horse partners. In order to be able to provide these essential services, we need the support of our community partners like you! To continue to provide a high caliber program and level of care to our horse partners, we are kindly asking for your financial sponsorship of our annual fundraiser, EquestFest.

This event is critical to our operation, and is responsible for approximately 20% of our budget. Your donation to this event helps to underwrite the cost of the Saddle Light Center program and aids in keeping our fees affordable.

Please donate and help us continue to positively impact lives and maintain the viability of our program! We greatly appreciate your support, we could not do this without you!

“

Our daughter has Cerebral Palsy and has been riding at the Saddle Light Center for 17 years. We have seen incredible gains in trunk control, balance, and stability. In addition to the therapeutic benefits, we have also seen a tremendous gain in confidence - she is really proud to let people know she rides Kai (her horse) on Friday nights. (Not many kids get to ride a horse every week.) She has transitioned from a pediatric walker to crutches, although she does still use a wheelchair for long distances. The therapists and volunteers have an amazing love for their riders and horses, and their dedication is second to none. We have been beyond pleased with the level of care and attention our daughter receives, and we definitely recommend the Saddle Light Center to any family who is interested in providing a wonderful experience for their loved one.

“

Since my son started therapeutic horseback riding, we have seen so many benefits and improvements, both physically and emotionally. He has gained strength, most notably in his upper body. He sits up taller while riding and can now carry his saddle to put it away. It has helped him socialize and follow directions. He is proud of his riding skills and has gained confidence to try new things.

M. Culver
Mother of Rider
